INTRODUCTION

- i -

CANSIM* (Canadian Socio-Economic Information Management System) is Statistics Canada's computerized data bank and its supporting software. The CANSIM Mini Base, a standard subset of data originating from CANSIM, contains approximately 26,000 time series. It is available at various Secondary Distributors** and updated on all working days with the exception of federal government holidays. The CANSIM Mini Base Series Directory provides a list of all the series available on the CANSIM Mini Base. In addition, to the CANSIM Mini Base Series Directory, Statistics Canada publishes Catalogue No. 12-202 and the CANSIM Summary Reference Index and the CANSIM Main Base Series Directory. However, the Main Base Series Directory is no longer included in the catalogued publication service and must be ordered directly from the CANSIM Division.

The CANSIM Summary Reference Index is a summary of the contents of the CANSIM Main Base; the CANSIM Main Base Series Directory provides a list of all series available on the CANSIM Main Base. Both these documents are available for reference at the offices of Secondary Distributors. The CANSIM Main Base currently contains over 325,000 time series; a request may be made to your Secondary Distributor to obtain series, in addition to those on the Mini Base, from the CANSIM Main Base. Usage of these additional series will be monitored and when the content of the CANSIM Mini Base is reviewed these series may be added to the Mini Base.

All Secondary Distributors of the CANSIM Mini Base carry a dummy series with Databank Identification Number A100. This series contains three data points:

- (1) the year, month and day (YYMMDD) of creation of the previous daily update file,
- (2) the year, month and day (YYMMDD) of creation of the current daily update file, and
- (3) the time the update file was loaded on the system of the Secondary Distributor.

For all series on the CANSIM Mini Base, the updates will be available within one working day of their release on the CANSIM Main Base.

*CANSIM is an Official Mark of Statistics Canada.

When publishing any statistical data or text retrieved from CANSIM the following credit should be used: "Source: CANSIM - Statistics Canada".

**A current list of Secondary Distributors is available from

HOW TO USE THE CANSIM MINI BASE SERIES DIRECTORY

The contents of the CANSIM Mini Base are grouped by subject into 13 Sections (see Table of Contents for list of sections). Each section provides a summary of the Matrices which pertain to a particular subject (i.e. Population, Prices, Construction, etc.). A "matrix" in CANSIM is equivalent to a "table" in a publication; a "matrix" contains a group of related time series. Following the 13 sections, the Matrix Numbers are listed in ascending numerical order.

Let us take an example:

You are looking for the All-Items Consumer Price Index for Canada (1971=100), monthly. The Table of Contents will indicate that Prices is Section 2. In Section 2 you will find that the series you are looking for is Matrix 4995. Now turn to the list of Matrix numbers to locate Matrix 4995 and also refer to the Guide to Effective Use of the CANSIM Mini Base Series Directory (page iii). The first series in Matrix 4995 is "All Items"; to the right of the series title we have 14-01-00 - this indicates that the data is available starting January, 1914. The Databank Identification Number for the series appears to the right of "PUBLIC"; this number is used to retrieve the data. "STC PRIX" is the agency and section responsible for this Matrix; should you have any questions concerning concepts, methods, limitations, etc., of this series, please refer to the Inquiries List (Appendix B) for the name and telephone number of a person to contact.
